Early Termination Charge

If you cancel your Plan before the end of your 24-month term, you will need to pay us an ETC and any remaining MRO and ARO payments. The ETC decreases by equal instalments each month you stay on the Plan. The ETC for your Plan is described in the above Plan table.

If you need to increase your data allowance you can move to a higher Plan or purchase a Business Data Pack at any time.

Using your service overseas and outside Eligible Countries (\$175 plan)

Your Plan has International Roaming already activated. The \$105 Plan does not include use while overseas, so you'll be charged separately for this usage. On the \$175 Plan if you use your service while roaming outside the Eligible Countries, you make calls or send messages to a country that isn't Australia or the Eligible Country you are in (or for usage not included in your Plan), this isn't included in your Plan so you'll be charged separately for this usage.

The cost of using your service overseas is higher than in Australia, and you may be charged for usage that wouldn't incur charges in Australia (eg, charges to receive calls). Here are the main charges that apply:

- **calls and SMS while overseas** – for call and SMS rates, see telstra.com/business/overseas
- **data while overseas** – \$3 per MB (charged per KB or part thereof).

When you arrive in an overseas country, you'll receive SMS alerts about International Roaming if your device is capable of receiving SMS. These alerts will tell you about roaming charges as well as how to stop roaming while overseas.
